EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

Page 2, line 7 after "serial number" insert --10/791,955--;

Page 2, line 9 after "serial number" insert --09/933,206--;

Allowable Subject Matter

2. After a further search and a thorough examination of the present application and in light of the Applicant's arguments and in light of the prior art made of record, claims 1-48 are found to be in condition for allowance.

Reasons for Allowance

3. The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The claims are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly disclose a VSB communication system

Art Unit: 2613

comprising a VSB reception system for detecting multiplexing information from a multiplexed data field, decoding the multiplexed data field by using the detected multiplexing information, and demultiplexing the multiplexed data field into MPEG data and supplemental data based on a multiplexed rule determined in response to the number of supplemental data packets indicated in the multiplexed information.

It is noted that the closest prior art of record (Knutson et al. US Patent no. 6788710) teaches a similar VSB communication system, however, Knutson fails to particularly teach or suggest *"detecting multiplexing information from a multiplexed data field, decoding the multiplexed data field by using the detected multiplexing information, and demultiplexing the multiplexed data field into MPEG data and supplemental data based on a multiplexed rule determined in response to the number of supplemental data packets indicated in the multiplexed information"* as specified in the claims.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance".
